### Team Manager Registration (cont)

When the registration is completed the successful registration page will appear and the **Participant** will also be sent a confirmation email and invoice email.

This page will also give the **Participant** the option to **Go to My Account** to view their profile or **Register another participant**.

## Profile Matching

When a **Participant** registers, a check will occur that will find any other PlayHQ profile that has matching **First Name, Last Name, Date of Birth, Gender** plus one of **Postcode, Mobile Phone Number** or **Organisation of Registration**. If any profiles return as a match, they will be shown on a new registration step called '**Claim Profiles**'.

A check will also occur to find a profile for a participant that has been loaded into PlayHQ from another competition software provider, these would be called **Unclaimed Profiles**. In this instance when one of these profiles is claimed all the participant's previous history would be added to the participant's profile.

Matching profiles will fall in to one of three categories:

- Profiles that don't require verification
- Profiles that require verification
- Profiles that can't be claimed and merged

All profiles that don't require verification can automatically be claimed and merged by the **Participant**.

When the registrant clicks the '**Verify Profile**' button for any profile in the second category, an email with a verification code will be sent to the email address attached to that profile. The **Participant** must enter the verification code in order to claim the profile and initiate a merge for that profile.

All profiles that fall into the third category require the **Participant** to contact support in order to proceed with their merge.

Matching profiles must be claimed and merged by a **Participant** before they are able to continue on with the registration process.

When the **Participant** has completed the **Choose User, Choose Role** and **Participant Details** section of the registration form the **Profile Matching** process will begin.
